

State Fund Offers Effective Claims Management

As California's leading workers' compensation insurance provider, State Fund's experienced claims professionals are available to address all claim needs. When a workplace injury occurs, State Fund provides immediate assistance to ensure a claim is properly managed, from reporting to resolution.

State Fund also features a wide range of services to help address the many factors that can drive up the costs of claims:

- **A toll-free, 24-hour Claims Reporting Center.** Knowledgeable claims professionals are available around the clock to provide immediate assistance when filing a new claim.
- **The State Fund Medical Provider Network (MPN).** By directing injured employees to the State Fund MPN, policyholders can retain medical control on claims longer and reduce medical costs. This can result in lower premiums.
- **Fraud Program.** As an industry leader in fighting workers' compensation fraud, State Fund's Special Investigation Unit (SIU) has been instrumental in both the prevention and prosecution of fraudulent activity.

Since 1921, State Fund has insured more trade associations than any carrier in California. Today, State Fund partners with almost 200 trade associations in nearly every industry for their workers' compensation needs. Call State Fund at (800) 252-0419 and find out the potential savings and services you can receive for being a group member.
