

Save When You Partner with State Fund

Group members benefit from many discounts that can potentially reduce their workers' compensation premium in addition to a comprehensive list of services and programs that State Fund offers. Savings, such as the group discount, Claims-Free Credit, and Merit Rating Plan, can lower the cost of insuring employees and protecting businesses.

Group Discount

Other carriers may offer dividends at the end of the policy term, but State Fund group members benefit immediately with upfront savings. A six percent discount is automatically applied towards a group member's workers' compensation insurance premium simply for participating in State Fund's group program.

Claims-Free Discount

Safety pays! State Fund recognizes the positive contribution of employers who maintain safe workplaces by applying the Claims-Free Credit discount, a savings of up to 15 percent, towards their premium.

Merit Rating Plan

State Fund offers an additional discount off workers' compensation premium based on an employer's individual risk characteristics.

As California's leading insurance provider, State Fund remains the partner of choice for trade associations because of their commitment to providing value and services to protect group members and workers. Call State Fund at (800) 252-0419 and find out the potential savings and services you can receive for being a group member.
